BIOKOSMA SHAMPOOS (FOR VARIOUS HAIR)

Do You want a shampoo as natural as your hair? The BIKOSMA hair care program meets the requirements of the various hair and scalp types.

Mildest substances from coconut cleanse hair gently without irritating the scalp. Plant extracts or oils are most effective where problems begin and provide strength and resilience to scalp and hair at the root while adding natural shine. Since they are highly concentrated, the shampoos are very economical.

BIKOSMA shampoos are incomparable and unique:

- **2 to 3 times higher concentration than conventional products**
- **No preservatives – the products are self preserving**
- **No formaldehyde – not even traces**
- **No aggressive natrium-lauryl-sulphate**
- **Alkaline free, adjusted to the pH value of skin and hair**
- **Pure plant cleansing and active substances**

PRODUCT INFORMATION
