

# BIOKOSMA

## SUN PROTECTION

We love the sunny sides of life. Therefore, we have developed the **BIOKOSMA SUN** range. **BIOKOSMA** not only protects the skin against the harmful rays of the sun, it also soothes and preserves the skin and gives it a natural tan. Thanks to the plant oils it hinders heat congestion. The natural vegetal fats and oils are especially suitable for sun protection and sun cosmetics. In the **BIOKOSMA SUN** range they develop their full intensity.
