## BIOSUN – THE ORIGINAL HOPI EARCANDLE

*An Age Old Remedy Revived*

The Healing Method now called Ear Candling has been around for centuries. The ancient Egyptians used reeds in this technique. Native American Indians have also done Ear Candling using cornhusks, dipping them in beeswax to make a hollow candle. The process was also known in ancient India, Tibet and in the Aztec culture.

The Hopi Ear Candles are made from honey extracts, essential oil of sage, 100% pure beeswax, crushed traditional Indian medicinal herbs, beta-carotene and a pesticide-free woven cotton.
